

FCC,

K-Love is an important asset to me as a resident of my community and to many others I know, not only in this area but in others across the U.S. This Positive listening station provides a list of beneficial topics, discussions, and music to me and my family and I believe it would be a mistake and dis-service to my community to remove it from the air. I believe that K-Love provides a positive and healthy option for individual families and communities and SHOULD NOT BE REPLACED or removed in any way. I want to keep my K-Love signal!! Nothing should take priority over the current FM services if that means taking away this loved service and radio communication.

Thank you.

Lindsey Tiner
